INTRODUCTION

Khawarizmi International College (KIC) is the first private college founded & accredited in the UAE to offer affordable career-focused education with an emphasis on working students.

Founded in 1985, provides 14 programs in health management, information technology, mass communication and Islamic banking in Abu Dhabi and Al Ain.

KIC has well-chosen affiliations with international universities based in the UK, Australia, USA, Canada, Jordan, Tunisia, Lebanon, Pakistan and Malaysia, as well as partnerships with UAE-based institutions.

Its inspiring campus in Al Bahia Abu Dhabi, opened in 2017, has the capacity to accommodate 3,500 students. It has a wide range of classrooms, laboratories, and facilities that we are pleased to open for hire to the wider community.
CLASSROOM FACILITIES

With an infrastructure of 50 classrooms, ranging in capacity from 24 to 56, you will for sure find what you need for all your teaching, training and meeting requirements.

Equipped with the latest technology, the classrooms provide a flexible environment in a professional setting.
A range of specialized medical analysis laboratories, suitable for training health care professionals, are equipped with the latest technology standards. Each lab can accommodate 20 to 25 students.
**Histopathology Laboratory**

A full tissue diagnosis facility equipped with an Eppendorf centrifuge (micro), O2 incubator, microtomes, automated tissue processor, water baths (open), a thermo console, cryo console and CO2 incubator.
Biochemistry Laboratory

For plasma chemistry, organ functions and general chemistry tests, equipment includes water distillers, spectrophotometers, an ELISA reader and washer, vortex mixers and centrifuges.
Microbiology/Parasitology Laboratory

Equipped with microscopes, a safety inoculation hood, Incubator (O2), autoclave, water bath (covered), weighing balance and thermal cyclers for the diagnosis and culture of microbiological organisms.
Hematology Laboratory

Fully equipped for blood testing including microscopes, cell counters, Eppendorf centrifuge (micro), O2 incubators, a vortex mixer, a CBC analyzer, an HCT centrifuge and a test tube roller.
Our computer labs are equipped with 330 computers (Windows 10 and MS Office), full internet access, and can accommodate up to 48 students.
A state-of-the-art digital media production studio is equipped to commercial media production standards and is suitable for television or radio broadcasting, as well as other media requirements.

Fully soundproofed, it consists of a control room, stage, audio editing suite, and editing & graphics suite. There are multiple digital studio cameras equipped with teleprompters, a camera crane, dolly, audio recording devices, a vision mixer, an audio mixer, a fixed lighting barrel with lighting track, as well as Mac and PC multimedia labs.
